

FICHA TÉCNICA

Cubre boca económico 3 capas con filtro

Economic facemask 3 layers with filter

CÓDIGO:

EW-CBE3FBL-100

MARCA BRAND

EliteWear Personal Safety Equipment.

COLOR COLOR

Blanco / White

COMPOSICIÓN COMPOSITION

Capa principal: 100% polipropileno
Filtro: 100% meltblown BFE 95%
Capa exterior: 100% polipropileno
Elástico: látex recubierto de hilo poliéster.
*Main layer: 100% polypropylene
Filter: 100% meltblown BFE 95%
Exterior layer: 100% polypropylene
Elastic: latex covered with polyester thread.*

GRAMAJE GRAMMAGE

Capa interior: 35 gms/m²
Filtro Melblown: 20 gms/m²
Capa exterior 17 gms/m²
*Interior layer 35 gms/m²
Meltblown filter: 20 gms/m²
Exterior layer: 17 gms/m²*

DIMENSIONES DIMENSIONS

Base de cubreboca: 16.5 cms largo x 12.5 cms
ancho Liga elástica: 65 cms
*Facemask blank: 16.5 cm length x 12.5 cm width
Elastic: 65 cm*

DISTRIBUIDOR

VELAVI®
one stop supply

CARACTERÍSTICAS FEATURES

Producto sin costuras, doble sellado por ultrasonido para evitar desprendimientos. Material hidrofóbico repelente al agua permitiendo la respiración.

Seamless product, double ultrasonic welding to prevent detachments. Water repellent hydrophobic material allows comfort breathing.

OBSERVACIONES OBSERVATIONS

Todo equipo de seguridad deberá ser inspeccionado antes de su uso para descartar cualquier falla de fabricación. Un sólo uso.

All safety equipment should be inspected prior to use to rule out any manufacturing flaws. Single use.

APLICACIONES APPLICATIONS

Sector alimentos, actividades de protección ligera, sector industrial sin manipulación de contaminantes peligrosos, restaurantes, preparación de alimentos, etc.

Food sector, light protection activities, industrial sector without dangerous pollutant handling, restaurants, catering, etc.

EMPAQUE PACKAGING

Caja master con 1500 piezas. 15 paquetes interiores con 100 piezas cada uno.

Master carton with 1500 pieces. 15 inner bags with 100 pieces each

CUBREBOCA CON FILTRO

- Termosellado
- Liga elástica de látex recubierta de hilo poliéster.

eliteWEAR™
PERSONAL SAFETY EQUIPMENT

CHARGED MELTBLOWN PP FOR SURGICAL /DENTAL MASK APPLICATIONS PD-6681 MADE IN U.S.A.

GENERAL DESCRIPTION

A charged meltblown polypropylene using polymers approved for Medical Class II environments and end uses. See ASTM F23-40 guidelines.

CHEMISTRY

We only use validated polypropylene resin. See Validation Document 2016-2 for details.

APPLICATIONS

Medical, surgical and dental disposable face masks where superior protection, wearer comfort and breathability are key.
